IED Kit

IED Components in Box 11 of 11

- * 4-way Crimping Tool _____
- * 6" Long nose Pliers _____
- * Circuit Tester/Meter _____
- * 3/4" Electrical Tape _____
- * Quick Splices' _____
- * Rubber Grommets' _____
- * Assorted Cable Ties _____
- * Assorted Wire Connectors _____
- * Assorted Wire Terminals _____
- * Assorted Wire _____

<* 3-5 of each kit is available

Weapons Cache

Box 1 of 11

* Replica Hand Grenades _____ 16

Box 2 of 11

* Replica Hand Grenades _____ 16

Box 3 of 11

* Replica SKS Carbines _____ 4

Box 4 of 11

* Replica 61mm Mortar Shells _____ 6

* 3-5 of each kit is available

AK47

RPG
MINES
AK47

SUCIDE VESTS
AFGHAN CLOTHING
Etc..

1. Go to: <http://www.pendleton.marines.mil/StaffAgencies/AssistantChiefofStaffG35/TrainingSupportDivision/TrainingDevices.aspx>
2. Fill out the replica/clothing form and email it to mcb_campen_tsd_trg_dev@nmci.usmc.mil
3. An approval email will be sent within 24 hours

Or:

The image shows a form titled "MTD ISSUE FORM" with the word "Replicas" in red below it. At the top right is a circular logo. Below the title is a header section with fields for "Requester's Name (Print, Last)", "COCID ID #", "Email", "Phone # (Ext)", "Room #", and "Access Code". Below this is a section for "Requester's Signature" and "Date". Below that is a section for "Approved by (if not same as above)" and "Email address". At the bottom is a table with columns: "Qty", "Replica/Clothing/Other", "Comments", and "Date Recd (include comments/Date)". The table has 15 rows for data entry.

- You can do a walk in at building 2238 Rm 126 and get the equipment if available.
- You can call us at 760-725-6139 and do a reservation over the phone. Call 760-725-4444 if no one is available at the primary number.

Target Systems

Provided by ESP Contractors
725-4805/760-385-5120

<http://gtssw-espinc1.com>

SAAB PIT AND HAND HELD CONTROLLER

The GRC5 program offers full drag-and-drop support for range and scenario design. Items such as targets, pyrotechnics, movers and maps can easily be added to the range configuration. The range is graphically presented on screen and targets are shown with current status in real time. GRC5 is a user-friendly tool to assist the instructor in planning an exercise.

- There are no program limitations to the number of targets, tasks or commands that a range or a scenario can handle. To run a pre-programmed scenario the operator use simple play/pause/stop buttons. Training data is collected and stored during the execution of an exercise. Applicable score sheets (individual, firing order, etc.) can be produced and printed.
- The GRC5 program contains the following tabs: Scenario Player, Scenario Designer, Range Maker and AAR Playback:
- **Scenario Player** is used for running pre-programmed scenarios or to manually control the target equipment. The scenario player view also has the tools for viewing or printing results.
- **Scenario Designer** is used for creating or editing scenarios, here by assisting the operator in handling complex or repeated command structures.
- **Range Maker** is used for creating or editing a range. With simple Windows type tools, targets are

SAAB PIT

Hit Sensing: Single Shot and Burst Count Modes
Hit Detection: Target Commands Expose, Conceal, Hit-Hold, Hit-Fall, Hit-Bob, Hit-Stop
Grouping: Timed groups scenarios.
Accessories: Can be tested by push of a button. It has a light which will provide muzzle flash simulation or illuminate the target during night shoots.

Scenarios **can be saved. Can also be saved to thumb drive or on laptop in a folder.

Weight: 46lbs w/out battery (A fully charged battery will last up to 10 hours of continue use.)
Battery: 27lbs

Stackable up to 3 high. Requires a battery, an ivan, an antenna, a shield and 16-18 sandbags and laptop control.

How many fit in a :

HMMWV = 15 (with no seats) Trailer or another vehicle

LARUE TACTICAL

BATTERY POWERED. Automatically resets 1800 times between charges. Timed to reset in 9 seconds, then shuts off, saving power and leaving it ready. Battery is internal and weather proof.

MAN PORTABLE. 72 lbs. total weight. Totally self-contained, no assembly Required. No set-up, no hoses, no wires! Requires 3 sandbags over the battery/control box.

BATTLE TOUGH. 3/8" thick 500 Brinell target. Withstands .223s and .308s. 1" thick version for .50 cal ball with own shield.

Weight: 72lbs

Stackable during transportation.

- HMMV= 20-25 (removed seats)
- 7 Ton = up to ~40

REMOTE READY. Larue 556 is remote capable. Up to 5 sets of targets can be controlled by operator manually.

X-02 SIMULATOR

The X-02 uses a 12 volt rechargeable battery for its DC power supply. One battery will last up to 6 hours of continuous use.

The X-02 is a self contained unit where the oxygen and propane are internal tanks. It uses a blended mixture of oxygen and propane ignited in an open chamber to achieve the sound level and simulated blast effects to replicate a variety of threats such as IEDs at 100dB-130dB

Capable of firing off up to 150 shots per full tanks in increments of one shot per 5-6 seconds.

Weight: 40lbs

TCU-Trigger Control Unit can be connected to a variety of triggering devices. For example: vehicle pressure unit, trip wire and motion sensor

XO2- Scenarios and Command Detonations

**EOD
Training
Scenario**

**Booby Trap
Scenario**

**Roadside IED
Scenario**

Provides the most realistic and objective training scenarios
Detonation and arming on command provides instructors complete control
Instructors may also remotely detonate and disarm even when using automatic triggers and

**Artillery Simulation
Scenario**

**Security Checkpoint
Scenario**

BADGER AK-47 SIMULATOR

The Badger is a remotely operated simulation of an AK 47 assault rifle. It uses combustion of oxygen and propane mixture. To simulate the flash, noise, and percussive effects of the AK-47.

Capable of firing either single shots or 6 round bursts at a 600

- Badger Weight: 36 lbs
- Large Oxygen Tank: 146 lbs
- Large Propane: 35lbs
(Full tanks together will last up to 10 hours of continue use. Approximately 2000+ rounds)
- Battery: 27lb
(A fully charged battery will last up to 10 hours of continue use.)

** Containers should be strapped down to prevent rolling

Range Training and Instrumentation Systems Support (RTISS)

Bldg 2238, Hatch 19

MANWORN DETECTION SYSTEM (MDS)

- Provides an accurate representation of the Marine's skill in a combat environment
- Soldiers can transition from one weapon type to another seamlessly
- Simulates medical casualties and CBRE effects
- Safety features include panic button, eye safe lasers, and position location information
- MDS is one-half the size, weight, and consumes half the power of equivalent industry implementations

SOFTWARE SUPPORT ENVIRONMENT

- 2D and 3D mapping for accurate modeling of the battlefield terrain
- Performs Issue and receipt processing
- Software expandable/customizable for growth

MOUT BUILDING INSTRUMENTATION (MBI)

- Shoot through walls (STW) provides realistic modeling of wall protection/munitions effects, affecting building occupants
- Enables tracking inside GPS-denied areas

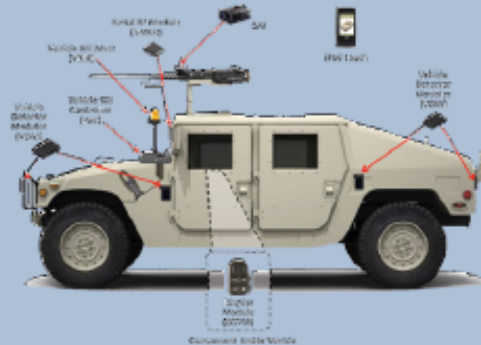

MOBILE C2 TRAILER SYSTEMS

- Single man-portable C2 is lightweight, self-contained, and based on the mobile C2 in a smaller package
- Mobile C2 trailer is easily transportable, simple to setup and proven reliable
- Automated tagging of audio, video and exercise data for AAR debriefing package

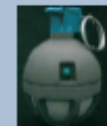

INDEPENDENT TARGET SYSTEM (ITS)

- Universal wireless target system, eliminating cumbersome cables
- iPod Touch contains instructions to outfit vehicles, speeding up installation time
- Configurable for any structure: building, bridge, small watercraft, or vehicle

OTHER PERFORMANCE CAPABILITIES

- Hand Grenade Simulator (HGS) - Designed for safety, it controls the details of fusing times and making adjustments
- Battlefield Effects Simulator Interface Module (BESIM) - Works with and attaches to existing BES in the field, and triggers realistic effects on all I-TESS devices
- RPG Surrogate - Realistically simulates the weight, feel, and operational procedures of an actual RPG-7
- AT-4 - Replicates the size, weight, balance, and operation of an actual AT-4

I want to order

- Badger Simulators
- XO 2 Simulators
- Portable Infantry Targets
- LaRues
- SESAMS
- T-IED Simulators
- ITESS Equipment
- Training

Go to:

<http://gtssw-espinc1.com>

Or call:

760-385-5120 / 760-725-4805

ESP Website Step by Step

Process

1. Click Active/Reserve
 2. Choose Location
 3. Fill in information
 4. Click type of systems wanted
 1. More requested space will show
 2. Fill in requirements
 5. Any other information place in the comments box: for example training needed, specific extra equipment not listed.
 6. Click submit
 7. A pop up will appear stating a successful transaction.
 8. Within 24 hours a tech will call you.
- ❖ Note there is a directory on the site incase of changes or if more information is needed.

The screenshot shows the 'Equipment Request' form on the ESP website. The form is titled 'Equipment Request' and includes a sub-header: 'Use this form to request Range Training & Instrumentation Systems Support for your exercise'. Below the title, there are two tabs: 'Active Component' and 'Reserve Component'. Under the 'Reserve Component' tab, there are four location options: 'Camp Pendleton', 'MCAOTTC, 28 Palms', 'MCB Kaneohe, Hawaii', and 'Camp Hansen, Okinawa'. The form then asks for contact information: 'Name', 'Rank', 'Organization', 'Work Phone' (with example '212-887-6328'), 'FAX', 'Email' (with example 'email@domain.com'), 'Exercise Name', 'Exercise Dates' (with examples '07/09/2014' and '07/09/2014'), and 'Equipment Dates' (with examples '07/09/2014' and '07/09/2014'). Below these fields, there is a section for 'Additional Remarks' with a prompt: 'Enter any additional comments, remarks, or questions here'. At the bottom, there is a row of equipment type tabs: 'Basic Effects Simulation', 'Targets', 'PTES 8', 'AUT', 'SSA/IS', 'T-Gew', and 'T-80'.

ESP Requirements:

1. There is a 24 hour business day period needed to evaluate your request in order to see the availability and perform the equipment preparation process.
2. Individual requesting needs to be qualified in equipment operations and be listed as a qualified person who will pick up and operate the equipment during the training evolution (All Personnel can go through training and hold a Minor Training Device [MTD] card for equipment operations of all equipment except SAAB PITS**). The MTD card will expire one year from training.
3. Training courses to obtain an MTD card are scheduled as follows: **Badger, X-02, and LaRue Targetry** classes are held every Tuesday at 9:00. **SAAB PIT (general knowledge course)** are held every Wednesday at 9:00.
- 4 . Individual who is picking up equipment needs to be an **E-5/SGT*** or above and hold an MTD card. (E-1 thru E-4 may place requests only and provide a qualified name in the comment's section for equipment pick-up).
5. If a civilian contractor or non-military end user is picking up he/she needs to be sponsored by a unit authorizing him/her to pick up the gear. That unit POC needs to place the request. (Civilian operator needs to be on the qualified MTD roster)
6. When returning the equipment, the same individual who signed-out equipment needs to return the equipment.
7. During return, if there is any missing or damaged equipment a DD 200 form will be filled out in order to begin the command investigation process.
8. Working party and correct **Government** size vehicle for transportation is needed for pick up and drop off. For reservation questions call ESP at 760-725-4805. For any maintenance issues contact the ESP contractor numbers on your form between the hours of (07:00-16:30) 760-725-4805 (For BES/Targets) or 760-385-5120 (For ITESS, AMTI, SESAMS, T-CREW, T-IED).

Special Notes:

***Requestor and/or Operator name must be listed and hold an MTD card in order to pick up and operate the equipment. If the name of the operator or person picking-up equipment is not on the qualified roster, the request will be denied. If you believe your request is going to be denied please call 760-725-4805 or list on request remarks that training is needed for equipment being checked out in order to add training dates and times to your request.**
